

Procedures and policies for maintaining and utilizing physical, academic and support facilities

The college follows a definite set of procedures and policies for sustaining and making use of its various facilities for the benefit of its students. The outcome and findings of practical experiments conducted in the laboratories of the various departments of the Science stream are duly preserved so that students may access the same, as and when necessary. The library has been computerized. A sizeable number of books and journals has been added to the existing stock of the library. All the academic departments of the college are equipped with their respective desktop computers.

The classrooms have been refurbished with better and increased seating facilities. All notifications are duly uploaded on the official website of the college (www.dinabandhumahavidyalaya.org) to disseminate the same among all concerned. Wooden benches have been purchased to accommodate the growing number of students. 2 laptops have been provided by DODL, Kalyani University. Photocopier, printer, Computer (1 each) have been purchased installed in the department of Bengali. The range of CCTV surveillance has been extended across the campus through installation of cameras in addition to the existing ones.
